Subject: Re: Question about LA Class VI UIC primacy application
Attachments: ATT00001.txt

Hello, Ms. Pham

What is the current status of EPA's review of the Class VI UIC primacy application by Louisiana? Does the EPA issue public notice for review and comment immediately after completing Phase III of its review or is there a gap in the time between completing Phase III and issuing the public notice?

Thank you,
Monique

Good morning Ms. Harden,

The LDNR Class VI Primacy application is currently in Phase II – Completeness review and determination.

Phase II: completeness review and determination

During the Completeness Review and Determination Phase, EPA receives and reviews complete drafts of applicable critical elements of a state submission including the governor's letter, attorney general's letter, program description, memorandum of agreement, and public participation documentation. The EPA and a state may engage in a continued dialogue to ensure that questions are clarified prior to the end of this phase. It

is also possible that a state, territory or tribe may identify regulatory or statutory changes that must be implemented prior to completion of this phase.

In addition, please visit the following EPA web site to get more information about our primacy process.

Subject: Question about LA Class VI UIC primacy application

Dear Ms. Pham:

What is the status of the Louisiana primacy application for Class VI UIC? If you are not the person who can answer this question, please let me know who I should contact.

Thank you,

Monique
